REBUILDING THE JACKSON.
Steam Barge Soon Will Be Ready for Service Again.
The steam barge Daniel K. Jackson, Capt. Owens, which has been at Solomons Island, Md., for the past four months or longer, being rebuilt and remodeled, is practically completed and within the next week or ten days she will return to this city, where she is owned. The Jackson will be employed in general freighting work on the river during the coming summer and fall and will make regular trips to creek landings between this city and Quantico. Since going to Solomons Island the house on the vessel has been enlarged, her square bow replaced by a sharp one, shape of stern made more steamboat like and other changes made that will make the vessel much more suitable for river service in the case of weather. The hull of the Jackson was built at Cumberland's boatyard at this city about eight years ago, and her machinery was installed at this port.

LOCATION.

HOMES IN WOODLEY.

The location of our homes in Cathedral avenue, TWO blocks north of the new Connecticut Avenue bridge, FAC- ING Rock Creek Park, and ONE block east of Connecticut avenue, is today universally recognized as THE choicest part of Washington's most desirable residence section.

With character in every line our homes combine the picturesque qualities of the olden time with EVERY ONE of the modern conveniences.

WE WANT YOU to examine our homes. It does not take an expert to judge a house; enough may be seen to judge the kind of construction that may be expected in those vital parts of the house which cannot be seen.

The REASON that we can offer such homes at such prices in WOODLEY PARK is that we purchased the ground long ago; it has since doubled in value. Prices, \$8,500 (large side lawns) and \$7,500. Terms, \$1,250 and \$2,500 cash; \$48.50 and \$55.00 a month, INCLUDING all interest—less than rent.

Take car marked "Rock Creek Bridge" or "Chevy Chase" to Connecticut and Cathedral avenues, walk one square to the park. The house numbers are 2228 to 2254 CATHEDRAL AVENUE.

TO SHOW EDDIE FAY'S KIT.

Tools Used by Richmond Post Office Burglar to Be Exhibited.

Visitors to the museum of the Post Office Department soon will have an opportunity of seeing what the post office inspectors regard as the most complete burglar's equipment ever exhibited. It belonged to one of the robbers who recently was sentenced to a long term in the penitentiary for burglarizing the Richmond, Va., post office.

Among the tools is said to be a mechanical device by which a combination safe may be opened with a minimum of noise in a few minutes. This device, it is believed, was used by the Richmond burglars, who made a most successful haul in one room while more than twenty men were at work in the next.

It was said at the department today that the entire kit of tools which belonged to Eddie Fay, one of the Richmond burglars, will be put on view in the postal museum as soon as a suitable case can be prepared for it.
